

KASIM YAVUZ ENERGY CONST. ELECT. ELECTR. PETR. IMP. EXP. IND.

**KASIM YAVUZ ENERGY CONST. ELECT. ELECTR.
EXP. IND. TRADE**

- **OUR COMPANY POLYGRAPHY**

A leader in the field, prioritizing safety, delivering services beyond quality standards and with our personnel staff possessing team spirit, a continuously pioneering approach in the to embrace and commit to our projects turning them into works of art.
To follow developments in the sector and increase the quality of our projects and

- **OUR VISION**

In a customer-focused approach, efficiency, accumulation of knowledge, experience and use of technology to create a competitive advantage, becoming institutionalized and a strong organization, to provide the best service in national and international projects.

- **OUR MISSION**

Using our company's resources in the most efficient way under current conditions, increasingly meeting diversified projects with the fastest, highest quality and lowest cost, adding value for contributing to the improvement of quality of life by adding value, fostering team spirit embracing, keeping customer and employee satisfaction at the highest level, respectful to the to be a leading company in the sector.

- **OUR WORKING INSTITUTIONS AND ORGANIZATIONS**

Our company collaborates with the Environment and Urbanization Directorate, the Ministry of Directorate, Provincial and District Police Directorate, Police Academies, Regional and Command Headquarters, State Hospitals, Presidency of Republic Housing Administration Hospitals and private organizations that do not compromise on quality.

- **TECHNICAL PERSONNEL OF OURS**

General Coordinator,

2 Electrical Engineers,

2 Electrical Foremen,

35 Electric craftsmen and assistant workers,

- **OUR VEHICLE PARK**

Vehicle park according to workload,

- **OUR POWER EQUIPMENT**

2 x 7.5 kVA diesel generators,

2 prefabricated buildings for worker housing,

1 prefabricated material building,

1 JCB excavator,

1 Dodge 250 open pickup,

3 passenger-type vehicles,

1 panel van vehicle,

and many small hand tools required for construction.

As "KASIM YAVUZ ENERGY", we have participated in tenders and delivered the to the institutions in accordance with the project and technical specifications and before the deadline. In the work we do, we pay special attention to quality, mass production, and compliance with the project, as we are technical personnel.

As a company, our philosophy is to complete the projects under our commitment in a quality and fast manner and deliver them to the relevant person or organization with the care and condition of not having to return again. For this reason, we only undertake as many projects as we can control under our commitment. Because "CONTROL

**WHAT YOU CANNOT CONTROL IS NOT idea
YOURS" is our principle.**

KASIM YAVUZ ENERGY CONSTRUCTION ELECTRICAL ELECTRONICS

A. Sports Facilities and Lighting Solutions

High-capacity, standards-compliant lighting for nighttime operations of sport complexes we are installing

- **İ Mu_ Stadium and Athletics Track:**

- Scope: Installation of 8 high-durability 35-meter lighting poles.
- Technical Detail: Gewiss brand, total 160 units of 2000 Watt rational luminaires group for professional field lighting.

KASIM YAVUZ ENERGY CONSTRUCTION ELECTRICAL ELECTRONICS

- **İ Ankara Yenimahalle Sports Complex:**

- Scope: Installation of 1600 kVA transformer center.
- Technical Detail: Complete installation of LV (Low Voltage) and Weak Current systems.

B. Electrification of Educational and Public Buildings

We provide uninterrupted energy infrastructure for universities and municipal facilities.

- **İ Dicle University Faculty of Letters:**

- Scope: 1600 kVA transformer station and energy distribution center.
- Technical Detail: Turn-key installation of MV and Low Voltage systems.

- **İ Balıkesir Bigadiç Municipality Social Facilities:**

- Scope: Indoor swimming pool and multipurpose playgrounds.
- Technical Detail: MV and Low Voltage infrastructure suitable for damp and wet areas.

C. Tourism and Accommodation Sector Energy Infrastructure

We support hotels' comfort and safety standards with modern low-voltage systems.

- **Balıkesir Bigadiç Applied Hotel (69 Rooms):**

- System: 1600 kVA transformer, Low Voltage systems suitable for distribution and room

- **Antalya Manavgat Orfeus Hotel (110 Rooms):**

- System: 1000 kVA Transformer center, main distribution and Low Voltage (Fire detection, announcements, data)

D. Industrial and Infrastructure Facilities

We provide high power management in facilities that are the lifeblood of cities.

- **Karaman İçme Suyu ve Arıtma Tesisi:**

- Scope: 4800 kVA High-capacity transformer station.
- Technical Detail: Modular power distribution with Busbar system, MV and Low Voltage control units.

1. Industrial Facilities and Factories

High-capacity energy and automation solutions for uninterrupted production lines we provide.

- **Nigde OSB Linen Textile Factory:**

- Scope: 1600 kVA Transformer facility and Busbar energy distribution lines.
- Technical Detail: Commissioning of production machines, MV and Low Voltage systems. Lighting system is fully installed with Busbar.

2. Logistics and Storage Areas—

Modern and secure electrical infrastructure renovation works for large-volume areas.

- **İzmir - Torbalı - Ayrancılar Warehouse:**
 - Scope: Modernization of electrical infrastructure.
 - Process: Complete renewal and commissioning of LV and Weak Current systems.

✂ Our Technical Competence Summary

- Transformer and Energy: High voltage solutions up to 4800 kVA.
- Industrial Distribution: Busbar systems and machine power feeds.
- Hazard Alarm: Fire notification, safety, announcements and physical wiring.
- Lighting: Professional on-site and industrial lighting design.
